Fortitude Valley Qld 4006

PROFILE

Focused, enthusiastic IT professional with a solid knowledge and proficiency in JavaScript, Python, HTML, CSS and mobile responsive web development, along with a strong skill set in Vue.js and React.js. This is coupled with an incredible skill to create and foster relationships with all stakeholders.

EDUCATION

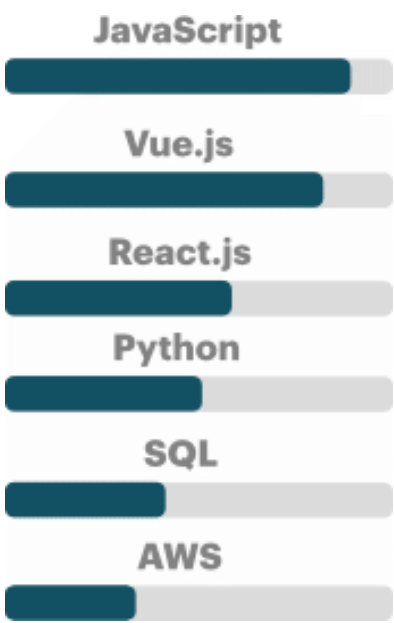

Graduate Diploma - Website Development | TAFE Queensland | Nov 2021

EXPERIENCE

Developer | Yabbr | Brisbane | Jan 2023 - Jul 2023

Responsible for migrating apps from Vue 2 to Vue 3, implementing new UI features and designs, and onboarding new white label clients. Utilised technologies such as Vuetify, Vue Bootstrap, Vue Multiselect, Vuelidate, Moment.js, and Lodash to deliver exceptional user experiences and drive client success.

- Collaborated with a team of developers to migrate multiple applications from Vue 2 to Vue 3, ensuring seamless compatibility and improved performance.
- Implemented new UI features and designs using Vuetify and Vue Bootstrap, enhancing the user experience and driving higher engagement.
- Leveraged Vue Multiselect for intuitive and interactive dropdown components, enabling enhanced data selection and user interaction.
- Utilised Vuelidate for form validation, ensuring data integrity and user-friendly error handling.
- Integrated Moment.js for efficient date and time manipulation, enabling accurate data representation and formatting.
- Employed Lodash utility library for streamlined data manipulation and enhanced JavaScript functionality.
- Led the onboarding process for new white label clients, conducting discovery meetings, gathering requirements, and assisting in the successful rollout of their customised systems.

- Collaborated closely with cross-functional teams including designers, project managers, and QA engineers to deliver high-quality solutions on time and within budget.
- Actively participated in code reviews, providing feedback and suggestions to maintain code quality and adherence to best practices.
- Worked closely with stakeholders to understand business needs and translate them into technical requirements, ensuring alignment between technology and business objectives.
- Demonstrated exceptional problem-solving skills, quickly identifying and resolving complex technical issues to minimise downtime and optimise application performance.
- Actively stayed up to date with the latest industry trends and advancements in Vue.js, attending conferences and webinars, and implementing new techniques and technologies to improve development processes

Developer | Conversify | Brisbane | Jan 2022 - Current

Responsible for automated and custom multi-media campaigns across multiple sectors and industries. The key technologies currently used in this role are AWS, Vue.js, Python, PresDesign.

- Development of internal production tools user interfaces, this is a ongoing daily task with many complex UI features. I am currently converting all existing tools from a template rendering engine called Jinja that renders HTML from the backend, to modern Vue.js with the help of the composition API.
- Maintain and improve internal automated scripts and server less programs. Large amounts of personal data is handled daily, often exceeding 200,000 records. This is made efficient with the use of Python, Pandas and AWS.
- Responsible for training and development of junior staff member in a design templating role. This incorporates code reviews and challenges with but not limited to HTML, CSS, Javascript.
- Proficient in PresDesign, a templating software used to make adhoc/direct mail templates. This program relies heavily on HTML, CSS , Javascript to layout out correct business logic to then be printed.
- Delivering exceptional customer experience, recently named finalist in The Real Media Collective Awards for Australia.

SKILLS

- Multitasking and Prioritisation
- Efficient and Detail-Oriented
- Calm and Professional Under Pressure
- Merchandise Receiving and Handling
- Security Practices skills
- Adaptable and Flexible
- Customer Needs Analysis
- Customer Technical Support
- Business Development
- Competitor Knowledge and Analysis
- Exceptional oral communication
- Complex problem solver

CERTS

- Vue.js 3: Composition API (with Pinia, Firebase 9 & Vite)
- AWS Lambda and the Serverless Framework
- Learning Amazon Web Services
- Talk Python fastapi
